# IPv6 Deployment and Support Project Presentation

RIPE 56  
Berlin, May 2008

## About the Project

The purpose of the 6DEPLOY project is to support the deployment of IPv6 in (i) e-Infrastructure environments, (ii) FP7 projects, (iii) developing countries (Africa, Latin America, Asia and Eastern Europe), and (iv) industrial environments in Europe.

Partners offer basic training to organisations in Europe and developing countries, and support real IPv6 deployments. Case studies of installations will be used to gain valuable practical experience which will help the 6DEPLOY team to become the centre of European expertise regarding IPv6 deployment.

## Project Facts

- Start date: 01/03/2008
- Duration: 30 months
- Total budget: 1.284.776 Euros
- Funding from the EC: 1.000.000 Euros

## Project Participants

- AfrinIC (MU)
- BREN (BG)
- Cisco (NL)
- Consulintel (SP)
- FCCN (PT)
- GRNET (GR)
- LACNIC (UY)
- Martel (CH)
- NIIFI (HU)
- Renater (FR)
- Soton-ECS (UK)
- UCL (UK)
- UNINETT (NO)
  
- APNIC
- RIPE NCC
- ...

## Support Activities

- Collection and maintenance of material for the training sessions, and the tailoring of programmes in conjunction with the requesting organisation.
- “Hands-on” IPv6 training (focusing more on training trainers).
- E-learning course.
- Assistance for the development of a strategic plan (“roadmap”) for the deployment and advise on practical aspects such as equipment ordering specifications, routing plans, etc.
- An IPv6 Deployment Guide will be maintained, and supplemented with examples of case studies.
- A less-technical “How to Deploy” guide will also be produced for administrators.
