Equinix Exchange Global Snapshot

- IX Landscape in US differs from EU
- Largest North American Exchange Point: Ashburn, VA – aka DC Metro
- 650+ Ports in 10 Metros
- 225+ Unique Customers Globally
- Exchange Aggregate Traffic grows ~90% year over year

Partner with top incumbent IXPs in well-served markets:

Germany

- DE-CIX enabled FR2

The Netherlands

- AMS-IX enabled AM1 by August, 2008

United Kingdom

- Mature discussions with LINX for LD4 site

Build and maintain Equinix Exchange based on customer/market feedback:

France

- Equinix Exchange – Paris

Switzerland

- Equinix Exchange (formerly TIX) – Zurich
 - Relaunching TIX with Exchange Portal

- Hong Kong Exchange tentatively EOY
- Tokyo Metro Expansion Proposed
 - Increased 10G traction in Tokyo
 - Expand current capacity
 - Add Shin Nikko Bldg to fabric
- Singapore Exchange and GRX
 - Continued growth
- Sydney
 - Matured participant density
 - Mostly port upgrades

- New Portal
- MLPA-Servers (Old-timey Goodness)
- IPv6
 - Dual Stack in all US Markets, Zurich, and Paris
 - Dual stack in Tokyo, Sydney, and Singapore by end of year
 - Increased traction for v6 in last 6 months (no pretty graph ☹)
- GRX in DC Metro

Thank you
